Edmodo is a free and secure social networking platform for teachers, students, parents and school administrators. Our district-wide deployment will give us access to advanced features that allow us to communicate more effectively across the district.

In the coming days, we will conduct professional development to demonstrate how we can use Edmodo to enhance collaboration and learning across our classrooms, schools and professional learning communities. To find courses, search schools for keyword: Edmodo.

If you would like more information on getting started, visit the teacher help center <http://help.edmodo.com/teacher-rollout-resources/> or attend an Edmodo webinar at <http://edmodointro-eorg.eventbrite.com/>.

Thank you and enjoy using Edmodo.
